

Mikita Juluzin.

My memories from International Village  
project 2013.

My memories of the International Village began at the moment when my teacher asked me to go to Slovakia. I couldn't refuse such an offer and immediately agreed. On Saturday night we all sat together on the bus and at 4 pm on Sunday were in place. For many of my friends, this trip was not for the first time, so I was like a tourist at the beginning. I met with the organizer of the event, Roman. He is quite a positive person. We came first, and the first thing I noticed at the reception - billiards. We immediately went to play. Then came the people from other countries. At first we didn't communicate with the foreign students but in the evening we all became friends. Until the evening I couldn't find my neighbours from Italy. I met with Luca only in the evening. He was a lot of fun and a very good guy. He and I immediately became friends. I can express many thanks to the teachers: Laura, Jeff, Randall for the interesting and informative lessons. We had 2 lessons and 2 activities a day. We were organized a trip to the Aqua park and Gracour. The weather was not so good but no one got sick. Last night we gathered to say goodbye. We sang songs. In the morning we were already leaving for Riga. I had goodbye to the guys from Italy. I stay in a <sup>house</sup> with many so far and everyone is calling me to visit. I loved this trip and the event! Thank you very much!
